GENEVA, Feb. 9.—Japan, still defying the great powers, insists upon the recognition of Manchukuo, her puppet state in Manchuria. Battling with a decision by the League of Nations committee of nineteen that Japan must make further concessions before conciliation of the Manchurian conflict is possible, Yosuke Matsuoka, chief Japanese delegate, emerged from a long discussion with Sir Eric Drummond, the league's secretary-general, still insisting Japan would not give ground on the Manchukuo problem.

"My job today," Matsuoka told International News Service in an exclusive interview, "is to try to find a way to conclude the demand of the committee of nineteen that Chinese sovereignty be maintained with our insistence on the recognition of Manchukuo as she now stands."

PA NEWC OBSERVES

Pa Newc observed a big covered auto van standing along the street during the snowstorm yesterday afternoon which was marked "refrigerator service". Seemed sort of out of place.

Add a nice little breeze to a zero temperature, like this morning, and you won't find anyone wanting to stand around on the corner and discuss politics or anything else.

One of Pa Newc's boys sort of sympathetic toward the poor little girls who go around with sheer stockings on a day like today. The aforesaid gent has been wearing shorts all winter, and this morning had to pour warm water over his knee joints to get them thawed out when he reached the office.

How would you like to have ridden the fire truck from Central station out to Norwood avenue and Highland this morning? Neither would we.

A lot of the walking enthusiasts who usually hike down town from the North Hill in the morning were glad enough to board a street car this morning and ride. It was rather chilly for walking.

Snow shovels got the call again this morning. The wind that accompanied the fall end of the blizzard drifted snow in a lot of places.

Jack Frost sure did his job up right last night in painting the windows. He didn't forget one and they looked as if they would stay that way until summer comes again.

There were large pieces of ice floating down the Neshannock river this morning and a white vapor kept coming up continually from the water.

Young Pa Newc wonders if the lads and lasses in different sections of the country who find joy in winter swimming when they have to break the ice to go in, would find that particular sport exciting today.

Despite the heavy snowfall yesterday afternoon there was no delay in street car operations here, it was announced today at the office of the New Castle Street Electric railway.

MIAMI, Fla., Feb. 9.—Smashing all American precedents, it appeared likely today a woman may receive a real diplomatic post under the "new deal" of President-elect Roosevelt's administration.

Ruth Bryan Owen, retiring congresswoman from Florida, and

If Bryan's daughter achieves a place in the American diplomatic corps, she will have the honor of leading her sex to the title of "minister plenipotentiary".

Work Is Started On Preparation Of 1933 Budget

County Commissioners And
Solicitor Take Up Items
Of County Expense

LAST YEAR'S DATA
IS USED AS GUIDE

County Commissioners P. O. Elder, F. R. Woods and Elmer Connors, with County Solicitor John P. Lockhart, went to work on the county budget for 1933, yesterday, immediately after tentative data had been submitted by County Controller R. C. McCaslin.

The figures presented by Mr. McCaslin embraced the costs of the different departments last year, with suggestions as to the probable costs for the present year. The county commissioners took up the estimates, as shown in today's News on another page, and discussed each at some length, with the object in view of trying to reduce expenses for the ensuing year.

It was found that in many instances, where there were fixed charges, it would be difficult to make any reductions, but in other cases a saving might be effected. Some of the estimates were found to be too low, particularly in the amount estimated for bridges, they report.

The biggest bridge project which the commissioners have on for this year will be the strengthening of the West Washington street bridge. If this work is done during 1933, and from reports of engineers it is necessary, the amount to be set aside for bridges will be more than double the estimate, the commissioners assert.

The amount of road damages which the county will be called upon to pay is also another item for which it is hard to make an estimate in advance, the commissioners state. They have been endeavoring to settle these cases wherever possible but it is said that there are several cases that are likely to get into court and there is no way to estimate the amounts of the verdicts.

The commissioners will be opposed to paying any damages for laying (Continued On Page Two)

Zero Weather Hits District

Sub-Zero Marks Are Recorded
In Lawrence County This
Morning

Sub-zero weather hit Lawrence county this morning following on the trail of the snowstorm of yesterday, the lag-end of the blizzard which swept down out of Canada and howled through the mid-west earlier in the week.

The official temperature, recorded at the United States weather observation station at the water works, was one below zero this morning, but unofficial marks ranging from zero to eight and ten below were reported.

Contrary to the general belief, this was not the lowest temperature of the winter. On December 15 and 16, the mercury officially dropped to two below zero. However, a brisk wind added much to the discomfort of the cold this morning and made it feel colder.

Weather conditions moderated very little during the day. New Castle thermometers were hovering around zero at noon today.

Find That Army Supplies Given Needy Are Sold

Supplies For Michigan Charitable Organizations Found
Being Shipped Aboard

CUSTOMS AGENT
STARTS PROBE

(International News Service)
WASHINGTON, Feb. 9.—An alert federal customs inspector at the port of New York was responsible for the disclosure that army supplies furnished Michigan charitable organizations for relief purposes were being shipped aboard, International News Service learned today.

The federal inspector noticed that a shipment of goods, including army overcoats and gloves consigned to London and South Africa were government goods, and reported it to the war department.

A checkup was made on the supplies furnished the various states, and army officials identified packages of goods in New York as the same which had been turned over to representatives of Robert J. Byers, Michigan welfare officer and adjutant of the Michigan department of the American Legion.

Two Men Held.
The war department ordered the department of justice to conduct an investigation which, five months later, culminated in grand jury indictments being returned against Byers and George S. Krieger, New York Tuesday on charges of selling the army supplies at a profit.

The federal agents also discovered that large quantities of underwear supplied by the army for use in Michigan had been sold in New York at prices far in excess of those paid the war department.

Minor Damage

Firemen were fortunate in answering alarms today, to find they were of little consequence. Three calls were answered this morning, no material damage resulting in any instance.

At 4:30, they were called to Smith's Diner at 43 South Mercer street, where the boards in the floor of the dining car were set afire in thawing out water pipes. The damage was negligible.

At 7:45, No. 2 and B. Truck companies were called to Norwood avenue, when a man came running into the Park avenue station and stated there was a fire on Norwood avenue and gave the location. Arriving on the scene, the firemen could find no blaze.

At 8:30, B. Truck was summoned to the Youngstown hill, West State street, where the carburetor of a machine owned by Jordan Brothers of Grove City took fire when an attempt was made to thaw it out. There was small damage.

REPORT FIFTY DEATHS DUE TO POLAR BLASTS GRIPPING MOST OF U.S.

Sub-Zero Weather Is Reported In Almost Every Section
Of Nation Today—Middle West Bears Most Severe
Attack Of Arctic Wave—Chicago Is Hard Hit—Western
Pennsylvania Cities Report Six To Eight Below.

(By International News Service)
Death and suffering rode on the icy wings of polar blasts today as almost the entire country was held in the grip of record smashing sub-zero temperatures.

At least 50 persons were frozen to death and scores were partially frozen or injured as the result of fires, accidents and devastation that followed in the wake of stinging winds.

Families were driven into the cold, homeless sought shelter and food by the thousands and animals were frozen in their tracks as the Arctic blasts of death took its toll.

Below Zero In New Mexico
In New Mexico it was 4 below in some places, while in Montana and Wyoming the thermometer registered temperatures of from 20 to 40 below.

The middle west was hardest hit by the storm blasts. Only portions of Florida and California escaped the abnormal temperatures. New York reported 15 above, but the forecast for the Atlantic coast was for increased cold.

Two deaths were reported in St. Louis while as far south as the Texas Panhandle the biting winds had dealt death. Two deaths were reported in Dallas. In Kentucky there was one death and three injured in auto crashes attributed to the snow and ice. Five deaths were the result of freezing and accidents in Kansas City. Iowa reported three deaths.

Weather forecasters held out little hope for immediate relief and in some places the worst was yet to come. In the northwest temperatures plunged to new depths of 50 and 60 degrees below while some relief was felt in the southwest though the mercury hovered around the zero mark as far south as Arizona.

In Western Penna.
Wintry gales and a dazzling sun battled for supremacy in Pennsylvania today with Old Sol having the edge as the day wore on.

A miniature blizzard, accompanied by whirling dervish winds, had subsided and the issue was being fought out on a temperature basis, with Old Sol slowly pushing the mercury upward.

Western Pennsylvania was most tightly gripped by winter's icy hand. Temperatures ranged from zero downward, with Wesley, Venango county, reporting a low of six degrees.

Pittsburgh, shoveling itself out of a snowfall that crippled transportation, awoke to a temperature reading of three degrees below zero at eight o'clock. An hour later, however, the mercury rose to one degree below.

Cold In District.
Kane and Hampton each reported six degrees below zero; Brookville, three below; Franklin, two below; Oil City, zero; Erie, two below.

East of the Alleghenies, winter's grip was loosened considerably. Harrisburg reported a low of ten degrees. (Continued On Page Two)

League Victory Is Won By China

Committee of Nineteen Rules
Japan Must Make Further Concessions

GENEVA, Feb. 9.—China scored a victory over Japan before the League of Nations today when the committee of 19 ruled Japan must make further concessions before conciliation of the Manchurian conflict is possible.

Action of the committee made it a virtual certainty Japan would resign from the league.

The decision was made when the committee met to consider the Japanese concession to the effect Japan would permit the Lytton report on Manchuria to be used as a basis for further attempts at conciliation.

Japan's concessions, however, fell far short of the mark, the committee found.

First, the committee ruled, Japan must abandon all pretensions that Manchukuo, her puppet government in Manchuria, is a "real and recognizable state".

Second, Japan must cease military operations in Jehol.

(International News Service)
WALVIS BAY, South West Africa, Feb. 9.—Squadron Leader O. R. Gayford and Flight Lieutenant P. E. Nicholls, who yesterday wrested the non-stop, long distance flight record from America after landing here on a flight from England to Cape Town, prepared today to complete their hop to the tip of the African continent. Describing their flight, Gayford said:

"The trip was satisfactory and the weather was good along the first portion of the route. After passing Nigeria, however, we ran into a dust storm which hindered navigation."

Severe Storms
"The weather during the second night was bad, with rain squalls and much cloudiness hampering our navigation. During that night our automatic control became unserviceable."

The fliers said at one point a sandstorm drove them 300 miles off their course.

Where zero never has a chance and snow is never known where sunshine paints the world all day, where cocoanuts are grown. Uniontown Girl Tells Story Of Liquor Parties

Fourteen Year Old School Girls Causes Arrest Of Theatre Usher As Attacker

AUTHORITIES PROBE SENSATIONAL STORY

(International News Service)
UNIONTOWN, Pa., Feb. 9.—Fourteen-year-old Catherine Orr, Uniontown schoolgirl, permitted herself to be branded with the initials of her "boy friend" during an orgy of weird liquor parties which followed her disappearance recently, County Detective Jack Hann charged today.

A red-hot bobby pin served as an improvised branding iron to sear the initials on her arm.

Sensational Story.

Catherine told her sensational story when she was arraigned before Judge Thomas H. Hudson on a charge of incorrigibility. After the arraignment, Hann preferred serious charges against Michael Galadi, 24, theatre usher.

Galadi is free under bond until Saturday when Hann, acting under order of Judge Hudson, completes a probe into the girl's story.

In court, Catherine related that she and her "boy friend" and another couple had spent the days she was reported missing staging a series of liquor parties. She told of numerous attacks. Catherine said the branding had been voluntary.

The story came to light when the girl was arrested by police who had been searching for her several days following the broadcast of a general alarm that she was missing. Her parents feared she had run away from home to New York.

Some Frosty Sights In Downtown Section Today

Sights and remarks received downtown this morning through the half closed eye and red ear of one of the reporting icicles:

Horse standing obediently on South Jefferson street.

Numerous cars parked on North Mercer street with engines running.

"I delayed putting anti-freeze in it so I am hitch-hiking."

Car with two seat covers and blanket draped over radiator. Another paper attached to radiator cap.

Brave individuals with turned up collars heading into the wind-swept Jefferson street plains like over-toppers on French battlefields.

"Cold enough for you?"

"What was the temperature at your place this morning?" "Five below, but felt like 86 below."

And our coal run out last night, so you can imagine what it was like.

Little boy whose mittens were attached through his coat arm-holes by a string, had lost one up his sleeve. Three people surrounded him endeavoring to find the elusive mitten.

When snow makes the ominous crunch it does today when stepped on—well, it is not cool weather or chilly—it is frigid, icy, freezing, frosty, glacial, gelid, arctic, polar, bleak, nipping, sharp, raw, wintry weather.

out new roads in the county during the year. If any roads are wanted the property owners must agree among themselves to donate the land.

An effort will be made to cut down the rentals on buildings which are used for election purposes, but the pay of officials and of registrars is set by law and the commissioners do not have jurisdiction over it, the county board relates.

There was considerable discussion over the cost of keeping prisoners at the workhouse, penitentiary and other institutions. It is costing the county 85 cents per day per prisoner for keeping prisoners at the workhouse. The cost of keeping them in the county jail is about

50 cents. An effort will be made to get the workhouse and other costs cut down. If this cannot be done, it is possible that more may be kept at the county jail, although the jail could not accommodate all of them, the board members said.

The commissioners are still working on the budget today. After they have their estimates prepared they expect to go over the matter with a committee of the Taxpayers' League, which as asked to sit in on the making of the budget. The budget must be ready by February 15, when the millage will be set for the ensuing year.

Hair Fell Out until Almost Bald. Healed by Cuticura.

"My scalp itched dreadfully and my hair fell out until I was almost bald. I would scratch and the small pimples that were there would break and burn terribly. I lost sleep and my nerves were a wreck. I could not brush or comb my hair it hurt so. I had the trouble about three months before I sent for a free sample of Cuticura Soap and Ointment. After the first week I noticed a great difference so I bought more and now I am entirely healed and my hair is coming in." (Signed) Mrs. J. O. Martin, 408 S. WAKE UP YOUR LIVER BILE—WITHOUT CALOMEL

And You'll Jump Out of Bed in the Morning Rarin' to Go

If you feel sour and sunk and the world looks punk, don't swallow a lot of salts, mineral water, oil, laxative candy or chewing gum and expect them to make you evenly sweet and buoyant and full of sunshine.

For they can't do it. They only move the bowels and a mere movement doesn't get at the cause. The reason for your down-and-out feeling is your liver. It should pour out two pounds of liquid bile into your bowels daily.

If this bile is not flowing freely, your food doesn't digest. It just decays in the bowels. Gas bloats up your stomach. You have a thick, bad taste and your breath is foul, skin often breaks out in blemishes. Your head aches and you feel down and out. Your whole system is poisoned.

It takes those good old CARTER'S LITTLE LIVER PILLS to get these two pounds of bile flowing freely and make you feel "up and up." They contain wonderful, harmless, gentle vegetable extracts, amazing when you come to making the bile flow freely.

But don't ask for liver pills. Ask for Carter's Little Liver Pills. Look for the name Carter's Little Liver Pills on the label. Resist all substitutes. 25c at all stores. © 1931 C. M. Co.

MORE SCOUTS BEFORE THE CAMP FIRE

THE Boy Scout movement is primarily a movement to the out of doors. The Boy Scouts of America is a leader, and to a certain extent, a pioneer, in such activities. It seems to it that groups of boys get a chance to go camping each summer—and also in the winter if they want to do so.

Each year its efforts result in large numbers and fully 320,000 scouts were in camp last year. It goes further and sees boys are directed by the counsel of friendly advisers that the boys get a lot more out of their holiday in the open than they otherwise possibly could.

But even this is not the end and the Boy Scouts and other organizations working with youth go still further, planning with constructive effort to give the boys who go to camp and on overnight and week-end hikes something that shall be of lasting benefit to them and to the community of which they are growing citizens.

Boy Scouts at camp, just to name three of many things they are taught, learn how to prevent accidents on water and on land, how to render first aid and the technique of swimming. Every year hundreds of lives are saved by Boy Scouts who are good swimmers and experts in life saving. Boy Scout and other outdoor leaders have but lately developed a technique for life saving in winter and prevention of skating and other ice accidents.

Winter camping in spite of school duties and other controlling conditions is a popular activity, and many hikes and short term camps during the celebration of the twenty-third anniversary of the organization celebrated February 8-14, 1933, will testify to the camping activities of Boy Scouts.

MARINE LEADS NATION

It may be news when an applicant for admission to college passes a good examination. From the publicity given to Linton Keith, freshman in the University of Chicago, you might imagine he had made a winning touchdown.

If you ask us, he has. Keith not only stood first among 750 freshmen in a "scholastic aptitude" test. He stood highest of all the 200,000 college freshmen in this country who have taken such tests in the last ten years.

There are two other reasons why this freshman is good news. One of them is that he's an ex-marine. We expect almost any superhuman feat of marines. The other reason is no less interesting. Keith is 36 years old, married and the father of two children. He comes obviously into the "adult education" class. It is one of the notable discoveries of these last few years that grown-ups past the usual school age are likely to be as quick-witted and as able to learn, as young fellows. The 36-year-old freshman neatly proves it.

LOVING HEARTS

Have you sent your Valentine by Telegram yet? Take your feet off the desk, pick up the phone, ask for the telegraph company, state your message (one ready-written for you by the company if you prefer) and the deed is done, as quick as that. No shillyshallying, no pawing your hair for ideas, no searching the stores, no laborious writing, no waste of time. Be business-like (not like business as it is now, but as it used to be). Display pep, vim and vigor! State your love message and put 'er through. Then back to your dictation: "Yours received and contents noted, etc."

Not so long ago a telegraphic valentine would have met a cold welcome from the recipient. (Was not a typewritten personal letter practically an insult?) A certain amount of brooding over the message by the sender was of the essence of the procedure. A man sat alone somewhere by the fireside with a picture before him, gave himself up to sentimental meditations, grew mellow and mellow, and finally after an hour or two the idea for a valentine came to life in his brain. He composed it very privately, and mailed it, blushing. At least, this is the scene that the person receiving the valentine was supposed to believe in.

It is not so today. Time is brief. Perhaps love is also. The gal who gets a valentine by wire is neither deceived nor displeased. As a matter of fact she has sent you one too—perhaps the same one:

If you love me as I love you,
This telegram will have to do.

IT'S MORE PLEASANT IN AMERICA

Some times we Americans do not realize how fortunate we are to be citizens of this country until we observe the lot of the natives in some of the other nations. A news item coming from Russia makes us think of this. It is interesting because it shows a method of doing things which is the direct opposite of the American way, for which we should be devoutly thankful.

Production of lumber in the northern section of Soviet Russia is not up to expectations. The government therefore is setting out to remedy the condition. A decree has been issued calling for conscription of all able-bodied peasants in the district for service in the lumber camps. The women and children are ordered to carry on the work of the villages. Any person refusing to accept service is to be dealt with as a traitor. And even worse than that drastic step, from the American viewpoint and probably from the Russian peasant's as well, is the fact that there is no mention of pay in the decree, although it does make provision for feeding the workers. They can talk all they please about the wonderful progress of the five-year plans, but we much prefer the American system.

The strenuous man often wins victory that isn't worth the effort.

Don't think that because men ask you for advice they really want it.

Mahatma Gandhi, the Hindu bathing beauty, will put on another "fast-unto-death" endurance contest if the advance "feelers" produce the proper amount of publicity.

A dog should be treated as one of the family, says a fancier. Why be so harsh as all that?

The reaction to some of the names "mentioned" for posts in Roosevelt's cabinet is one of amazement.

The average spinster has a strenuous time trying to make herself believe that she is a man-hater.

ARE MEN VAINER THAN WOMEN

Is it really true that men have more vanity than women?

I asked a man. I asked a woman. The man said no. Once in a while, said he, you see a man who is fussy about his clothes, his appearance, but whenever you find a man like him you find a fellow that isn't liked by other men. A man doesn't pay much attention to such things. He takes himself as he is, and lets it go. He knows he isn't much and he isn't vain about his appearance. But women are almost always vain about themselves. You know very well that they spend an enormous amount of time on fixing themselves up, buying clothes, worrying about the slight changes that announce the coming of age.

They diet, they dye, they powder, they grieve. Don't tell me that men have more vanity than women—are you crazy, or are you just trying to please the women? That's what the man said.

The woman said that of course men are vainer than women, and every woman knows that is true. A woman does spend a certain amount of time in fixing, in primping, but that's because she wants to improve her appearance. She knows she has one or two points that are fairly good; so she tries to emphasize them. She knows she has weak points, so she tries to conceal them.

But a man! Well, a man doesn't admit he has any imperfections at all. Or, if he has any, they are so small that they hardly count. A woman wants to impress ONE man, as a rule (or perhaps two or three). But a man thinks he's a charmer at any age. Such arrogance, such vanity, is beyond any woman's reach. To his last breath a man thinks—and knows—that he is irresistible! (That's what the woman said, and she likes men, too, but she was smilingly emphatic about expressing her opinion.)

What do I think? I agree with her and disagree with him. When she says that the greatest vanity is the one that is imperturbably satisfied with itself, she submits an argument that is practically invincible and only superb vanity would attempt to demolish it.

But I think a woman is probably vainer about not being vain than a man is about BEING vain—and this argument has become entirely too complicated. It's a vain argument.

KEEPING UP

If you are out of sympathy with the management in the place where you are employed it is time for you to move on.

You may say that you cannot afford to give up a job in these times.

But to do the work assigned to you in a half-hearted way plainly indicating that you would do the work in a way far superior to that of your boss, is to lose your job anyway, sooner or later.

Carrying out orders in a desultory manner merely to hold your job is not giving the sort of service expected of you.

One of the main reasons for dropping older persons from a payroll is that they have become more or less machine-like and are satisfied with their own production and their own manner of going about it.

Older men many times are averse to adopting new methods and carry them out under protest, with the conviction that older methods are better.

They are ready to argue with younger men who bring innovations. But the older man who has trained himself to adopt new ideas readily, and to carry them out as enthusiastically as he does the ideas that he personally favors is in less fear of lessened employment.

He is keeping up with the advancing procession, not lagging behind it. (Copyright, 1933, King Features Syndicate, Inc.)

HOPE FOR THE FUTURE

When capital and labor get back to work again.

Perhaps they'll fall as brothers—not as different breeds of men. Perhaps they'll see each other not as enemies, but friends. With a clearer understanding just how much on each depends.

When capital and labor set the fires aglow once more, Perhaps they'll know each other somewhat better than before. And the man who owns the factory may find a way to share The burdens more effectively of all who labor there.

When capital and labor start the wheels of trade again, Perhaps they'll see each other just as earnest fellowmen. And the man who wields the hammer may find something good to say Of him who builds a factory where he can earn his pay.

When capital and labor start the wheels of lathe and loom, God grant they'll find the meaning of this period of gloom. For with better understanding of each other's cares and needs, Both sides may be less selfish in their thinking and their deeds.

Hints and Dints

Sun sets tonight 5:20. Sun rises tomorrow 7:07.

NOTHING FROM NOTHING

"My boy," said the business man to his son, "there are two things that are vitally necessary if you are to succeed in business."

"What are they, dad?"

"Honesty and sagacity."

"What is honesty?"

"Always—no matter what happens, nor how adversely it may affect you—always keep your word once you have given it."

"And sagacity?"

"Never give it."

An old lady approached a ship's officer on a stormy night. "Oh, I feel dreadfully ill," she moaned, "what do you think I should do?"

"Don't let that worry you," replied the calloused sailor, "you will do it anyway."

Porter: "Did you miss that train, suh?" Puffing passenger. "No, I didn't like the looks of it, so I chanced it out of the station."

"I'm sorry, sir," said the dentist, "but you cannot have an appointment with me this afternoon. I have 18 cavities to fill." And he picked up his golf bag and went out.

ADOLESCENCE

Mr. Smith had two children, a girl of 14, and a boy of 12. And another was impending. The family took great pains to keep the youngsters in ignorance. Mary was sent to stay with Aunt Lucy and Alfred was sent to visit Uncle George. Finally the new member arrived and Mr. Smith went over to get Alfred.

"You've got a new baby brother," he said. "Here's a dollar. Send a telegram to sister and tell her about it."

Pretty soon Alfred returned and handed his father some change. "Why," said the father, "that telegram cost more than this."

"Yes," said Alfred, "the one you gave me would, but I sent one of my own. I just said, 'I win, it's a boy.'"

The last type of motor horn, we are told, reproduces the notes of a harp. "This is a really subtle method of warning pedestrians to get out of the way."

"Mr. Johnson, I'm sure you'll help us out with a song." "Sorry, but my vocal efforts are confined to singing in my bath." "Oh, do sing, and I'll warn the company that you're rather out of practice."

Filling station attendant: "Here comes another I. W. W. customer." Looter: "What's that?" Attendant: "A motorist who wants information, wind and water."

"I'm glad to find you as you are," said an old friend. "Your great wealth hasn't changed you." "Well," replied the candid millionaire, "it has changed me in one thing. I'm now eccentric where I used to be polite, and delightfully witty where I used to be rude."

In a nearby court a man was Patient: "Doctor, are you sure this is pneumonia? Sometimes doctors prescribe for one thing and the patient dies of something else." Doctor (with much dignity): "When I prescribe for pneumonia you die of pneumonia."

If women call him a brute and men call him a sucker, he's probably a good average husband.

Patient: "Doctor, is there any danger of the operation proving fatal?" Surgeon: "Really, my good man, considering that we are experimenting on you free of charge, your idle curiosity is hardly good for you."

Well, we've never tried to find a needle in a haystack, but it can't be much more difficult than locating one in a portable phonograph.

IMPROVEMENT ON NATURE
A orphan asylum the childless Mrs. Brown, who had selected an infant for adoption, suddenly showed trepidation.

"Will I have to keep the baby, if

it doesn't suit my husband?" she asked hesitating.

"Of course you won't have to keep it," responded the accommodating matron. "You can bring it back and exchange it any time. We're not arbitrary, like the stork."

Some fatal wrecks never are explained. Police can't find any fragments of the bottle.

CASH AND CREDIT

Some of the depression sufferers are like the dinky who had been playing poker.

He said, "Tell you, boys, I dun los' a heap o' money 's night."

"How much, Mose?"

"A hundred and eighty-seven dollars and fourteen cents."

"Golly! Dat wuz a heap o' money."

"Yas, siree, and de wuzt of it wuz, de fourteen cents wuz cash."

Americanism: Taxing the little fellow more and more in desperate effort to save the country; giving the big boys four billions in tax refunds.

Correct this sentence: "This is a sacred trust," said the public official, "and I shall spend the money more carefully than I would my own."

There's good in everything. If one nation can shoot up another without a war, history will be much easier for the next generation.

Speaking of tax refunds, isn't it strange that the rich alone are dumb enough to make mistakes in their returns?

First came the "realitor," then the "mortician," later the "beautician," subsequently the "bootician," then the "pedicure." And the other day a large dump truck careened down the avenue in one of our large cities bearing the imposing legend: "Kelly & McGuire, truckologists."

"Do you know how to make a peach cordial?"

"Sure. Send her a box of candy."

THE MOCKER'S MAGIC.

Ol' man's feeling sad and weary. Ol' world's lookin' mighty dreary.

Guess there's nothing much worth Black clouds hide th' ol' sun's glad-

ness— Makes me think o' sin and bad-

ness— Couldn't muster up a smile.

But a mocker bird's a singin'; I can hear his sweet notes ringin';

And he held me in his spell. "You're a poor ol' doubtin' creatur'!

You jes listen to my meter As I chirrup 'all is well."

"F" the ol' sun still is shinin', Makes a glory-lighted linin'!

To the bleak an' 'drearin' cloud. Better quit yo' spell o' sadness, Come an' drink yo' cup o' gladness,

Come an' sing yo' joy out loud."

Still, there's many a husband who leaves home without permission or explanation. He sneaks out.

charged with abusing his team and using profane language. One of the witnesses was an old dinky.

"Did the defendant use improper language while he was beating his horses?" inquired the prosecution.

"Well he talked mighty loud, sah."

"Did he indulge in profanity?" The witness seemed puzzled, so the lawyer put the question in another form.

"What I mean Uncle Sam is, did he use words that would be proper

for a minister to use in a sermon?"

"Oh, yes sah," the old man replied with a grin, "but the'd have to be 'ranged in different order."

My dear Miss Smith; Dear Miss Smith;

Dear Mary; Dear Mary;

Dearest Mary; Mary Darling;

Mary, beloved; My soulmate;

Darling Wife; Dear Mary;

Hello, Mame; Pay to the order of Mrs. Mary S. Doe.

WHAT HE NEEDED

"What we need is tax reform," he said. "What we need is tariff reform; what we need is trust reform; what we need is social reform; what we need is money reform."

"What you need is chloroform!" shouted a man in the crowd.

Chicken dinner roadhouses are now preparing for the spring and summer trade, laying in supplies of Rubber chickens. Steaks made from old doormats. Coffee made from lye. Lettuce salad covered with Carter's red ink.

IF THEY HAD PLAYED GOLF

Recently a friend of ours took a trip into the country to inspect some property. Approaching the farmer, he asked: "Is that the hired man over there near the barn?" Farmer: "No, that's the fourth vice president in charge of cows."

"Folks," said the colored minister, "the subject of my sermon this evening am Liars. How many in the congregation has read the 31st chapter of Matthew?" Nearly every hand in the audience was raised.

"Dat's right," said the reverend. "You is just de folks I want to preach to. Dare is only 28 chapters in the book of Matthew."

"I am a man of few words," announced the hard-boiled boss to the new hand. "If I beckon with my finger that means come. 'Suits me, sir," replied the hand. "I'm a man of a few words myself. If I shake my head, that means I ain't coming."

Visitor: "Well, Joe, how do you like your new little sister?" Joe: "Oh, she's all right. I guess, but there's lots of things we needed worse as long as there are already seven of us kids."

THE WHOLE STORY

From quiet home and first beginning, Out to the undiscovered ends, There's nothing worth the wear of winning But laughter and the love of friends.

—Anonymous.

Look at the earth. When it tries to mend a depression by pushing one part up, another part goes down.

Gentle hint to Congress: And the farmer isn't the only guy who needs his debts adjusted to his income.

SPEEDY SEPARATION.

"Three times and out" doubtless originated in Egypt. There, when a man wants to be rid of his wife, he says three times, "I divorce thee," and the thing is done.

The ideal law-maker is one who has enough wealth to hate taxes and not enough to pay taxes without suffering.

Technocracy isn't a total loss. It just naturally increases your self-respect to use such big words.

Note to Huey Long: If Nero didled while Rome burned, at least he didn't get in the way of the firemen.

So live that you needn't make desperate explanations to get confirmed for a Cabinet post.

Speed isn't wholly to blame for the tragedies. The other fellow's slowness is half of the cause.

Boom times can't begin all at once, anyway. It takes seven years to grow an orchard.

Hitler Likely To Be Sobered By High Post, Thinks World

Conservative Associates In New German Cabinet Suggest That Policies Of Fascist Leader Are Doomed To Suppression

Adolf Hitler, leader of German Fascists, chosen by President Von Hindenburg as chancellor, satisfies his ambition through attainment of that distinction, but American commentators suggest that with cabinet associates who are highly conservative, it is probable that the new chief will have no opportunity to carry out the holding of public office will naturally modify the vigor of his acts.

"As chancellor, he will probably be less dangerous than he would be in any other role," thinks the CINCINNATI TIMES-STAR with the suggestion that, "compelled now to school his demagogic instincts, the firebrand may lose his spectacular brilliance." THE NEW ORLEANS TIMES-PICAYUNE suggests that "he must face the same sort of attack he has been leading so long," and that, "with conditions reversed, he will get a new understanding of government and its difficulties." THE SCRANTON TIMES points out that "responsibility brings with it conservatism in action and thoughts," a view which is upheld also by the INDIANAPOLIS NEWS and the YOUNGSTOWN VINDICATOR.

"Before the 'Nazi' chancellorship was 24 hours old," says the WASHINGTON EVENING STAR, "it succumbed to that sense of responsibility which almost invariably overtakes even the most radical of regimes suddenly vaulted into the seats of the mighty." THE EVENING STAR adds that "Europe and the whole world breathe the more easily today in consequence of that revelation at Berlin." THE NASHVILLE BANNER feels that "actual occupancy of office will still further reduce his temperature." THE AKRON BEACON JOURNAL hopes that "the conservative quality of other cabinet ministers will serve as a brake upon the fiery chancellor's ambition." THE OMAHA WORLD-HERALD sees in his appointment "the hope that the cabinet will serve to curb him, and that at the same time the sense of power and responsibility may sober him."

"At last," declares the CLEVELAND NEWS, "he has been given a chance to see what he can do. He would be foolish to throw away his opportunity in attempting to foist a minority policy on the nation." THE BALTIMORE SUN holds that there would seem to be little superficial difference between a Hitler regime, on such terms as the Nazis have probably had to make, and a Von Papen government of a Von Schleicher government—unless, of course, the popular impetus behind the Nazi leader is powerful enough to swamp his more conservative colleagues.

THE BIRMINGHAM AGE-HERALD remarks that "if the present government can disfranchise the Communists, it will have a sweeping victory at the polls in March." THE CHRISTIAN SCIENCE MONITOR advises that "if Chancellor Hitler is big enough to drop the mantle of a demagogue, he stands before a great opportunity." THE PROVIDENCE JOURNAL offers the judgment that "either the new chancellor will discredit himself and thus rid German politics of a peculiarly stormy petrel, or he will prove that he is amenable to German discipline and thus will cooperate with the Hindenburg government to build a better Germany."

THE FORT WORTH STAR-TELEGRAM concludes that "he is given a conservative cabinet; what the process will do to the 'Nazis' will become an interesting mystery serial in news form."

"The government is clearly planning to make an appeal for a national election," declares the NEW YORK SUN. "If the opposition could bury its factional feuds long enough to do the same thing it would be possible to obtain a decisive verdict from the people. As it is, however there is nothing to indicate that a sharp cleavage between leaders manifest greater reasonableness and greater willingness to cooperate than they have hitherto shown, the advantage will rest with Chancellor Hitler."

THE ROANOKE TIMES believes that "nothing is certain except that Hitler is to have his chance to govern Germany." THE SAN FRANCISCO CALL says: "The world may find cause for gratification in the turn of events. It is always better for a nation that its government should be headed by the individuals in whom the majority of the people have the greatest confidence; von Hindenburg and Hitler are the men who fill the bill today in Germany. Revolution has not only been avoided, but postponed indefinitely."

A practical show-down for the Hitler efforts is seen by the ASBURY PARK EVENING PRESS, while brevity in his service is predicted by the SALT LAKE DESERET NEWS, the ROCK ISLAND ARGUS, and the HAMILTON (OHIO) EVENING

Mercury Drop Halts Razing On Diamond

Near zero weather today brought the first forced halt in the wrecking of buildings on the site of the city's new post office. Not a sign of activity was to be seen.

Snow, falling late yesterday and last night, had thrown a blanket of white over the debris and salvaged material stored to the rear of the public square lot.

Work will be resumed when the mercury rises, Foreman Victor Bristow declared.

Allege Woman Was Killed For Cult Program

Kentucky Mountains Scene
Of Strange Ritual In
Secluded Cabin

CHARGE MURDER TO MEMBERS OF FAMILY

(International News Service)
INEZ, Ky., Feb. 9.—Astonished authorities today placed together the bizarre details of how a cult in the Kentucky Mountains alleged killed an aged woman as a human sacrifice at the height of its strange ritual in a secluded cabin.

Investigation has brought about the arrest of eight members of a mountaineer family, seven of whom face murder charges. They were held as participants in the strange rites which are said to have resulted in the death of Mrs. Lucinda Mills, 72 years old.

The coroner's inquest returned a verdict that Mrs. Mills met death "at the hands of her son, John, and others."

Police Interrupt
An improvised altar had been prepared to receive the body when the police interrupted, they declared. Participants in the strange ritual had begun a fast last Friday in preparation, the coroner's jury was told. Lodged in the county jail, the prisoners prayed and shouted.

Those arrested are John Mills, 36, and Fred, 30, the dead woman's sons; Blaine McGinnis and Tom Boyd, sons-in-law; the woman's daughters, Mrs. Mollie McGinnis and Ora Mills; her daughter-in-law, Mrs. John Mills, and Ballard Mills, a grandson. Tom Boyd was held as a material witness.

Choked By Son
The coroner's jury was told that a period of praying, singing, shouting and other weird incantations brought "a word from heaven" that a human life had to be offered. Mrs. Mills was elected.

Her son, John, seized the aged woman by the throat, officers said, and held her until the sacrifice was finished. The chain was twisted about her neck and the altar was prepared, presumably for a burnt offering, it was said. Before the offering could be completed the authorities burst into the cabin.

Girl Evangelist To Speak Tonight

Miss Betty Weakland Of Cleve-
land Will Be The Speaker
In First Baptist Church

BETTY WEAKLAND

Betty Weakland, noted 16 year old girl evangelist from Cleveland, O., is scheduled to sing and preach at a special service in the First Baptist church, this evening, February 9, at 7:30 o'clock.

Miss Betty is the daughter of Dr. and Mrs. J. Roy Weakland. She has been preaching the Gospel for the past nine years. She prepares her own sermons and delivers them in an extemporaneous manner with a force and power that grips the hearts of her listeners.

Betty is now on a preaching tour which is scheduled to take her through the New England states. She speaks in a different church and city each night.

The girl evangelist is accompanied in her work by her parents and her 13 year old sister, Dorothy Lola, and her brother, Roy, Jr., all of whom take an active part in the services.

The service this evening will be interdenominational in character and everyone is cordially invited to attend.

Labor Conference Here On Wednesday

Miss Emmiline Pitt Of U. S.
Dept. Of Labor Makes
Short Visit Here

Miss Emmiline Pitt, United States conciliator for the Department of Labor arrived in New Castle late Wednesday afternoon and for a time was in conference with Mayor Charles B. Mayne and Eugene Sheridan, concerning the wage dispute now pending on the post office job.

The visit was not in the nature of a formal conference as Miss Pitt merely wished to report the progress of the case which is before the Department of Labor. The rate for common labor has not been definitely set and probably will not be for several days yet.

Miss Pitt's recommendation for the postoffice job is forty cents per hour for common labor, and the A. W. Kutsche company has offered to pay thirty five cents. Miss Pitt will return for another conference sometime early next week it is thought, by that time the decision of the Department of Labor will probably be handed down.

We have few faults which are not more excusable than the means we take to conceal them.

Elks Honor Past Exalted Rulers

Sixteen Past Rulers At Ban-
quet Event Wednes-
day Night

CHIEF ADDRESS BY HERMAN HESS

Elkdom paid an impressive tribute here last night to sixteen of the past exalted rulers who have served the New Castle lodge since it was chartered back in 1887, when the group of former chiefs, after their annual reunion dinner in The Castleton, formally took over the local lodge chairs again as "guest officers" and with the entire membership heard speakers laud the national organization on the 65th anniversary of its founding.

Near the middle of February, the Benevolent Protective Order of Elks occupies the exalted ruler's chair throughout the exercises, while the other chairs were filled by his association group.

Past Exalted Ruler C. W. Herman Hess delivered the chief oration which lauded the B. P. O. E. on its 65th anniversary, and Mr. Campbell, who followed him, related the organization story of the New Castle lodge.

During their own brief business meeting, the former leaders of the lodge re-elected Mr. Campbell to the association presidency for his fourth consecutive term. Past Exalted Ruler Abe Levine was renamed secretary for the fourth year.

Routine business came before the lodge during the brief moments Exalted Ruler Hite and his corps of present officers conducted things. They ceremoniously retired to allow the past leaders to take charge a short time after lodge was opened.

Present at the past exalted rulers' dinner besides Mr. Campbell, who played host to the past leaders this year, were Norris Mitchell, 1901-02; Charles H. Van Fleet, 1902-03; Harry L. Alexander, 1905-06; Jacob Cosel, 1911-12; C. W. Herman Hess, 1916-17; S. J. Kleckner, 1917-18; W. C. DeArment, 1918-19; Abe Levine, 1921-22; John F. Woods, 1922-23; George W. Lamoree, 1925-26; Ben S. Agnew, 1927-28; George W. Thomas, 1928-29; Clark H. Buell, 1929-30; Edward F. Ryan, 1930-31; R. H. Updegraff, 1931-32, and Exalted Ruler John D. Hite, the honor guest.

Nomination of lodge officers for the 1933-34 term were opened last night, and a second nomination opportunity will be given on February 22. Election of the new heads will come in April.

A properly placed shoulder seam acts as an anchor to a well-fitted dress, says the United States bureau of home economics, discussing home dressmaker problems. A COLD Goes Thru 3 Stages!

'And Relief Is Far Easier in the First Than in the Second or Third Stages!

A cold ordinarily progresses through three stages: the Dry Stage, the first 24 hours; the Watery Secretion Stage, from 1 to 3 days; and the Mucous Secretion Stage. The first stage is when treatment is most effective.

To stop a cold in the first stage, take Grove's Laxative Bromo Quinine. It does the four things necessary. Opens the bowels, kills the germs and fever in the system, relieves the headache and tones the entire system. Anything less than that is trifling with a cold. All drug stores carry Grove's Laxative BROMO QUININE. Be sure you get that and nothing else. Now two sizes—30c and 50c.

Mizpah Society

A tureen dinner featured the meeting of the Mizpah society of the First Presbyterian church Tuesday evening, after which the annual meeting was held.

Miss Ella McConnell had the opening ceremonies and Mrs. Walter Forrester talked on "The Indians" and Mrs. J. C. Gates discussed "Korea". Mrs. R. H. Kirkpatrick gave an interesting talk on "Stewardship".

An election of officers resulted in Mrs. Howard Magill being named president; Miss Ella McConnell, secretary; Mrs. M. L. Porter, assistant; Mrs. W. G. Forrester, treasurer and Mrs. Chauncey Hattenbaugh, assistant.

Plans were made for a Colonial tea in the church Tuesday, February 21, at which time a splendid program will be presented.

Burglary Attempt At Washington Street Market

As the officer on the beat was making his rounds this morning, he discovered that an attempt had been made to force an entrance into the Cash and Carry market, 106 West Washington street.

There were numerous marks on the rear door of the place, indicating that a determined effort had been made by thieves intent on burglarizing the place. The approach of the officers is believed to have frightened them away.

CONTROLLER WOULD CUT MANY COUNTY FUNDS

BUDGET PROGRAM IS SUBMITTED TO COUNTY BOARD BY McCASLIN

Suggested Budget Of Appropriations For 1933 Makes Many Recommendations For Reductions—Figures For 1932 Are Given—McCasin Presents Reasons For His Schedule.

Showing the expenditures in operation of Lawrence County during the past year, along with the estimated expenditures that will be required during the present year, the budget for 1933 was presented to the Lawrence County Commissioners yesterday afternoon, by County Controller R. C. McCaslin.

Reductions in many of the expenditures are suggested. The budget presented by the controller is a working basis for the County Commissioners in their appropriations of the year, and for fixing the county tax rate for the year.

The report of Mr. McCaslin as submitted to the commissioners, giving the figures and the reasons for the various changes suggested, follows:—

To the Commissioners of Lawrence County:

Gentlemen:—

I herewith submit estimates for operating the County and Poor Department in 1933, prepared in accordance with Act of Assembly, for your guidance in fixing the 1933 tax levy.

In preparing and submitting these estimates I have been influenced by the following facts:

1. That each year since the depression began we have experienced an increase in uncollected taxes. This amounted, in 1932, to a surprising sum.

2. That the county cannot continue to operate with the same scale of expenditures that it has been operating with during the past two or three years.

3. That certain of our revenues, other than direct taxation, are decreasing annually in amount.

4. That demands on the Poor Department in 1933 will be as great as in 1932, and that it will be prohibitive to collect enough taxes to meet this demand.

In other words, that we will still have to depend on assistance from the Commonwealth to provide proper relief in 1933, the same as we have in 1932.

5. That certain fixed charges cannot be changed in amount, and will vary only slightly; except bond redemption, which is considerably higher. That the payroll is practically the same; while there will be no change in utility rates and legal advertising rates.

6. That at the beginning of 1933 there was a balance of \$140,386.04 in the general fund, a decrease of approximately \$50,000.00 from the amount on hand in 1932. That at the beginning of 1933 the Poor Fund balance was \$40,319.33, an increase of approximately \$18,000.00 over the amount on hand at the beginning of 1932.

7. That on January 1, 1933, uncollected County Tax amount to \$148,000.00; and uncollected Poor Tax \$75,900.00. That it is conservatively estimated that of these amounts \$60,000.00 will be collected in 1933.

8. That in estimating amounts to be raised in 1933 by taxation, these balances should be taken into consideration.

I realize that the estimates submitted provide, certain drastic reductions. The estimates, however, are sufficient to carry on the normal functions of the county, in my opinion, and still not leave us in an embarrassed financial position at the end of 1933.

It is true that there will be little money in the Poor Fund to begin the year 1934, but we were compelled to borrow money one year ago on behalf of the Poor Fund, and are compelled to again borrow money this year; so that the fact that there will be little money to begin 1934 will not be a novel experience.

To operate the County and the Poor Department within the estimates submitted will require the constant and most hearty co-operation of every county official, and of everyone dealing with the county in such things as furnishing material, labor, and service; and in the matter of receiving money, service, or assistance from the county.

Respectfully submitted,

R. C. McCASLIN, JR.

EXPLANATION FOR REDUCTIONS

I make no attempt to explain minor increases or decreases, but wish to say the following concerning major increases or decreases shown on the foregoing schedule:

INTEREST ON BONDED DEBT—Debt interest is less by \$1,707.50 by reason of the fact that there are fewer bonds outstanding.

REDEMPTION OF BONDS—More bonds, however, mature in 1933 than did in 1932, making an increase of \$4,000.00.

ASSESSMENT OF TAXES—In 1932 the sum of \$13,472.50 was paid to assessors for services. In some of the assessment districts, the cost of making the assessment has been on the increase, despite the fact that there are fewer buildings being constructed or improved, and despite the fact that there are fewer transfers of property. I am estimating that the various assessors should not expect to receive more than \$10,000.00 for this work under present conditions; and, therefore showing a decrease of \$3,472.50 in this item.

GENERAL ELECTION—In 1932 \$5,577.67 was expended for the General Election. Some very logical ways for reducing this expenditure would be to reduce the number of voting precincts; to reduce the rental paid for certain polling places; and to remove certain polling places from private owned buildings to public owned buildings, where free rent could, perhaps, be obtained. In anticipation of some such moves, I am estimating the sum to be provided by you at \$4,500.00, or a decrease of \$1,077.67.

PRIMARY ELECTION—In 1932 the sum of \$5,264.40 was spent on the Primary Election. The same reasons apply for this appropriation as applies to the General Election, and I have, therefore, estimated the sum at \$4,200.00, or a decrease of \$1,064.40.

JURORS—Jury service cost the county \$23,020.44 in 1932. In as much as our honorable court has already decreased the number of jurors on each panel, and has, furthermore, already eliminated one panel; indicating that other panels will possibly be eliminated, I am estimating this item for the year at \$17,500.00, or a decrease of \$5,520.44.

COURT ATTACHES—This item amounted to \$11,515.00 in 1932, and with less terms of court, as indicated, I am estimating a decrease of \$1,515.00.

TEMPORARY LOANS—Owing to the closing of the Citizens National Bank in Ellwood City, we were compelled, in 1932, to borrow \$10,000.00, which can be omitted this year.

CORONER'S OFFICE—In 1932 \$1,927.20 was expended on this office, but happened that in this sum the balance due the former Coroner was included by reason of the fact that payment to him was made in 1932. The present Coroner has been paid in full for the year 1932; therefore, I estimate the sum at \$1,500.00, or a decrease of \$427.20.

WITNESSES, QUARTER SESSIONS COURT—In 1932 this item amounted to \$4,632.22, but apparently the number of defendants pleading guilty is increasing, with the result that there will be fewer jury trials, and I have estimated that this amount be decreased in 1933 by \$632.22.

COUNTY BRIDGES—In 1932 the sum of \$30,261.95 was expended on county bridges, but this included the cost of building three new bridges, and the painting of three major bridges. In as much as you are contemplating no new bridges in 1933, you only need provide for maintenance, and the possibility of replacing one small bridge, which, I have estimated will cost \$8,000.00, making a reduction of \$22,261.95.

COUNTY ROADS—In 1932 \$3,088.49, which was for damages awarded on several routes, was spent. I have provided, under item 33, "Viewers Awards and Damages", the sum of \$1,000.00. For the reason that no road construction is contemplated this year, and for the reason that I have not been informed of any damage claims, under this item I have made a reduction of \$3,088.49.

PENAL INSTITUTIONS—In both 1931 and 1932 practically \$45,000.00 has been paid to Penal Institutions. The various institutions, except Allegheny County Workhouse, which charges a flat rate by contract, charge according to the actual expenses of the institution. Each inmate, per day, costs a proportionate amount of the total cost of all inmates.

The 1932 contract with the Allegheny County Workhouse provided the payment of \$85 per day, per inmate. This is several times as much as the cost in our own county jail, and is much more than is allowed per day, per person, for relief. It is \$35 per day more than we receive for boarding prisoners from our own boroughs, and for boarding Federal prisoners committed to our county jail.

It is suggested that the Allegheny County Workhouse contract price should be lower this year, and that the charges in the other institutions should be proportionately lower. It is, also, pointed out that certain institutions are lower priced than others. It is suggested that our honorable court co-operate in this respect by selecting the less expensive institutions, where possible.

While this item is difficult to estimate, as no one can foretell the number of prisoners who will be committed, with the proper attention being paid to the factors making up this item, it should not be difficult to affect a saving of \$10,000.00, making a reduction of approximately \$4,470.00.

SOLDIERS' BURIALS—This item cost \$3,209.44 in 1932; but, in as much as less than one-half of the headstones purchased in 1932 were erected in 1932, cost of headstones can be eliminated. I have, therefore, suggested the sum of \$6,850.00, or a reduction of \$1,369.44.

REGISTRATION AND ENROLLMENT OF VOTERS—In 1932 \$10,200.75 was spent for the registration and enrollment of voters. The same method of reducing this item can be applied, as was dwelt upon under the previous subhead, "General Election", and, "Primary Election". In addition to this, there will be one less registration day in the City of New Castle in 1933, and the township and borough registering assessors will sit two days less than they did in 1932. For these reasons I have estimated a decrease of \$5,200.75.

COMMONWEALTH COSTS—Heretofore the Sheriff's office has been given credit for fees earned, but while we are not actually paid by the county, these fees were for the transportation of prisoners, the summoning of Quarter Sessions jurors, attendance at Quarter Sessions Court, etc. This year we have transferred such items to Commonwealth Costs. In 1932 the sum of \$4,218.01 was spent on this item, but, because of the change in bookkeeping, the item will likely show a net increase of \$12,150.00. This allows a reduction of \$550.00 in the item of Court costs as carried in 1932, \$500.00 of this sum of \$4,218.01 having a forfeited recognition, which was claimed by the state after being actually in the County Treasury by mistake.

REFUND OF TAXES—In 1932 this amount was \$1,734.41, which included two unusual items of large amount. I am, therefore, estimating the sum of \$450.00, or a decrease of \$1,284.41.

LAW LIBRARY—In 1932 the sum of \$2,982.42 was expended, which included the fire insurance premium for three years. In as much as there will be no fire insurance premium, and in as much as the librarian's salary has been reduced \$120.00 per year, I am estimating a reduction of \$482.42.

COURT HOUSE MAINTENANCE—This sum, in 1932, amounted to \$15,071.56. Because of certain salary reductions, and because no expenditure is anticipated for the purchase of equipment, carpets or to any great extent, I have estimated a reduction of \$2,671.59.

JAIL ACCOUNT—The Sheriff has promised his co-operation in reducing the expenditure in this account, and I am estimating a decrease of \$789.48.

OFFICIAL BONDS—The large bonds paid for by the county were written in 1932 for a period of four years. This makes it possible to decrease this item \$3,715.50.

JUVENILE-PROBATION OFFICERS—Because of the decreased mileage allowance to the probation officers, and because the probation officers have agreed to co-operate in the matter of reducing costs, I am estimating a decrease in this item of \$1,924.20.

DISTRICT ATTORNEY'S OFFICE—This office cost the county \$17,418.83 in 1932. This included the purchase of considerable equipment, and there were many unsolved murder cases to be investigated. The County Detective's allowance for the use of his automobile has been reduced \$2 per mile. For these reasons I am estimating a decrease of \$4,918.83.

INSURANCE PREMIUMS—In 1932 certain fire insurance premiums were written for a period of three years. This makes it possible to reduce this item \$2,787.12 in 1933.

PROTHONOTARY'S OFFICE—In 1932 the sum of \$16,276.16 was spent for this office. This, however, included the indexing of locality dockets, which was done by order of the court in accordance with an Act of Assembly. None of this indexing is anticipated for 1933, permitting a decrease of \$5,376.16.

CONTROLLER'S OFFICE—In 1932 the sum of \$6,943.74 was charged to this office. This included, however, payment to the County Auditors for that part of 1932 during which they worked on the audit for the period ending December 31st. It is estimated that this item will be decreased \$943.74 this year.

COMMISSIONER'S OFFICE-TREASURER'S OFFICE—These offices should be operated for amounts of \$1,700.00 and \$951.50 less, respectively; owing to the reduced rates of per diem clerks, together with the possible elimination of one clerk in the Commissioner's Office.

DOCKETS, PRINT, and STATIONARY—This item should permit a reduction of \$2,659.12, for the following reasons:

1. No General Election Proclamation will be printed in the newspapers at legal advertising rates.

2. Fewer dockets and ledgers should be required in most all offices in 1933.

APPROPRIATIONS—In as much as the matter of appropriation is entirely discretionary with the commissioners, I am estimating a decrease in this item of \$6,163.00.

COPYING COURT HOUSE RECORDS—An order of Court made in 1932 provides for the copying of certain records. It was originally estimated that this would cost \$10,000.00. It appears, however, that there will be considerable competition for this work, and, in view of this fact, I am estimating that the cost will be \$8,000.00.

EXPLANATION

In explanation of certain items under the Poor Fund Estimate, please permit me to say the following:—

INSURANCE—In 1932 expenditures for insurance included payment for policies that do not mature in 1933. This will permit a reduction of \$1828.54.

TEMPORARY LOANS—Because there was more money in the Poor Fund on January 1, 1933, than on January 1, 1932, borrowing should be \$10,000 less. Interest on these items may be more by reason of the fact that these loans were repaid in 1932 from the Talbot Act money, which was received prior to the time that Poor Taxes will be received this year, our only method of repayment this year being from taxes collected. The loans, though less, will likely run longer, therefore.

DRUGS—It is suggested that the county being much a large purchaser of drugs, that the same are costing the poor district considerably more than appears to be reasonable. It is, therefore, estimated that, if proper attention is given to this item, this cost may be reduced \$2,643.25.

PROVISIONS—This item formerly cost the county about \$7,000.00 or \$8,000.00 per month, but with the operation of the Emergency Relief Association becoming effective, it has dropped to less than \$100.00 per month. The estimated saving is, therefore, \$86,122.86.

CLOTHING AND SHOES—Chairman George T. Peingartner of the Lawrence County Emergency Relief Association, and W. O. Elder, county commissioner, were informed in Harrisburg, recently, that the state proposes to furnish shoes to the counties. There has recently been considerable activity by the local chapter of the American Red Cross in the matter of furnishing clothing to destitute people. I have, therefore, estimated that a reduction of \$11,899.42 can be anticipated.

TALBOT ACT—As a matter of record keeping, items paid for out of the Talbot Act in 1932, were charged under the heading, "Talbot Act". We no longer have the Talbot Act, so this item is now eliminated. The amount appropriated under this item in 1932 was \$20,078.79.

STATE EMERGENCY RELIEF—As the expense of this relief has been placed on, by law, I hereby budget the sum of \$1,200.00 for this purpose.

EXPLANATION OF ESTIMATED RECEIPTS

You will notice that I have estimated that \$60,000.00 of delinquent county and poor taxes will be collected in the year 1933. This is at the rate of \$5,000 per month, and is conservative. It is divided—\$21,000 to the Poor Fund, and \$39,000 to the General Fund. My reason for saying that this is conservative are as follows:—

1. Sheriff sales are clearing up many delinquent taxes.

2. At least one Building and Loan Association in this county has become a member of the Home Loan Bank, and others are applying for membership therein. This should enable certain Building and Loan Associations to refinance loans, which will permit the payment of delinquent taxes.

3. The above estimate presents the possibility of your considerably lowering the county's tax rate, which should make it easier for the taxpayer to pay his delinquencies.

4. Many of the delinquent tax books were not called for by collectors until late in 1932, so that, in some districts delinquent tax collection hardly began before January, 1933.

Slippery Rock College Asset

Closing Would Be Serious
Blow To Community, Dr.
Eisenberg States

MANY STUDENTS
LIVE IN DISTRICT

(Special To The News)
SLIPPERY ROCK, Feb. 9.—"What would it mean to Lawrence County if Slippery Rock State Teachers College would be one of the four state teachers' colleges to close its doors?" was asked Dr. J. Linwood Eisenberg, president of that college, in an interview yesterday.

Dr. Eisenberg stated that Lawrence county and the city of New Castle would be affected considerably if such a move at Slippery Rock were necessary. Last semester there was an enrollment of 832 regular students with 127 additional students who attended Saturday and extension classes. Of this number 106 came from homes in or near New Castle or in other Lawrence county districts.

"Our students represent the highest type of young manhood and womanhood in respect to character, scholarship, and ambition, who graduate from the high schools of Lawrence county. It may be assumed that they come from the homes of moderate incomes. The state is training these young people on the college level for service in the public schools of New Castle or other districts of Lawrence county at an average cost to their parents of \$350 per year. This includes room, board, laundry, and books. Teachers' colleges charge no tuition," said Dr. Eisenberg.

"If these students were to enroll in colleges in Pennsylvania which charge tuition next fall," he continued, "their average yearly tuition alone would amount to at least \$322 per student, to say nothing of their board, room, incidental fees, and books. In making this comparison it must not be forgotten that whether the money required to provide training for these young men and women to enter the teaching profession is paid from the public treasury or from the pockets of the students' parents, the money comes in some way from the citizens of Lawrence county."

"It would not only affect the parents of students attending Slippery Rock, but a very noticeable effect would fall upon the schools of the county. At present there are 327 teachers under the supervision of the New Castle City Superintendent of Schools. The records of the placement bureau at the college show that since the fall of 1927 forty-eight Slippery Rock graduates have been appointed to positions in the public schools of New Castle. In the county's fourth class schools there are 310 teachers, 117 of whom have been drawn from the Slippery Rock State Teachers College within the last five years," concluded the college executive.

Foster Blanning Enjoys Life As Member Of Navy

Is Getting Along Fine In The
Great Lakes Naval Training School

Foster A. Blanning of this city, who enlisted here recently through Chief Machinist's Mate C. F. Gerry, officer in charge of the local naval recruiting station, is enjoying life very much at the Great Lakes training school of the navy, where he has been located since entering the service, according to a letter received from him by Chief Machinist's Mate Gerry.

The letter received follows: "Dear Mr. Gerry:—In many ways, it seems but a short time since I left New Castle and in other ways, it seems very long. I miss the contact with the outside world but I like the work and the drilling. It is interesting as there are so many different things to learn."

"The inspections are certainly the most difficult of anything up here and they require the patience of Job to get ready for them. It doesn't seem possible that so many clothes would go into a bag just by rolling them up tight and hard. It certainly is a good method to press your clothes, even if it does take all your strength to roll them tight."

"My company was formed finally, the other day, and I am a squad leader and a cubical petty officer also. Although I haven't fallen out of my hammock, yet I dread the day when I get out of detention camp and graduate into hammocks eight feet off of the deck. You know, those decks are surprisingly hard when you hit them. I'll have to close as it is nearly time for taps."

Sincerely yours,
FOSTER A. BLANNING.

P. S.—I wouldn't trade it for anything though.

'Pattie' Rehearsals Making Progress

Title Role Is To Be Taken By
Dorothy Jean Wallace
In Y. W. Show

Seven days rehearsal are already past for the cast of "Pattie," the musical comedy to be presented by the Y. W. C. A. in the Cathedral on the night of Thursday, February 16.

The direction of the play is under William Kay Martin, a New Castle man now engaged in theatrical productions.

The title role is played by Miss Dorothy Jean Wallace, who impersonates an 11-year-old orphan in order to get her man, her man being "Cyclone" Williams, a young middleweight, played by Robert Hoose, who several years ago starred in high school dramas.

"When 'Pattie' is presented, one of the songs which should get over in a big way is "When I Grow Up To Be a Great Big Lady" sung by Miss

Much easier to wash dishes in these creamy suds

DON'T TAKE our word for it—try Rinsol and see! Dishes almost wash themselves. Grease goes in a jiffy, even from pots and pans. China and glassware shine like new. You'll say there never were suds like Rinsol suds—for dishes, for household cleaning, for the week's wash!

Cup for cup, Rinsol gives twice as much suds as lightweight, puffed-up soaps—in any kind of water. On washday these lively suds soak out dirt—save scrubbing. Clothes come 4 or 5 shades whiter—last longer, too, this "scrubless" way. Wonderful in washers. Get the BIG package.

Four Hundred At School See Scout Program Enacted

Crowd Braves Cold To Help Scouting Here Open 23rd Anniversary

FULL WEEK TO BE GIVEN TO EVENTS

Even though the sudden mercury drop kept many away, over 400 adults and youngsters congregated in the George Washington junior high school auditorium last night to join with New Castle district Boy Scouts in an impressive inaugural of their Boy Scout week affairs.

Lawrence county Scouts, both here and in Ellwood City, will mark Scouting's 23rd anniversary in public meetings and special troop affairs from now until next Tuesday. The observance is nation-wide.

Pageant, Speeches Feature
The George Washington program brought for the crowd that witnessed it a most inspiring pageant, entitled "Mightier Than the Sword". Speeches by officers of the Lawrence County Boy Scout Council and the presentation of annual awards featured.

Promptly at eight o'clock the audience arose, sang a verse of "America the Beautiful", heard the invocation offered by the Rev. A. M. Stump, pastor of St. Paul's Lutheran church, and a leading Scoutman, and then Council President Louis B. Round took charge.

"Ten Years Ago and Ten Years Ahead" was the theme of Mr. Round's enlightening address, tracing the growth of the Boy Scout movement here, and forecasting a greater roll of accomplishments in the years to come.

While plans to contact with the national Boy Scout observance in New York via radio had been completed, reception interference prevented the local audience from renewing the Scout oath in unison with the New York radio audience.

However, Scout Commissioner R. F. Davis led the 400 in the oath. The audience stood as it repeated the Scout pledge.

One of the principal events to mark last night's anniversary exercises was the presentation of awards to the Lawrence county's honor roll men for 1932.

Seated on the stage while the recognitions were made to leading Scout troops of the county and to Scout leaders whose service has merited them high honor, were Council President Round, Scout Commissioner R. F. Davis, Dr. G. S. Bennett, court of honor head, and the Rev. A. M. Stump of St. Paul's.

Awards Are Given
Bart Richards, former state legislator, at the invitation of Scout Executive Horton and council leaders, officiated in the presentation. Richards made the presentation, representing President Hoover, who as national head of the Scouts, had authorized the awards.

Mr. Richards made these presentations:
West Pittsburgh troop 1: County contest winner; high total, 2,141 points; high per cent, 112.68 per cent. A. S. Hainsworth scoutmaster; Jack Hainsworth and Harry Volland, assistant scoutmasters; troop committee, John R. Howell, Clyde W. Benn, Fred C. Fisher, T. H. Freed and L. C. Houle.

The presidential awards authorized by Herbert Hoover, President of the United States, through his local representative, Hon. Bart Richards, to the following troops: New Castle 2, 3, 7, 10, V-13, V-15, V-18, V-37; New Bedford V-1, New Wilmington V-1, West Pittsburgh 1, for increasing the troop membership in 1932 over that of 1931.

Leader training diplomas awarded to Scout leaders who qualified for the "Part I, Elements of Scoutmaster-ship" at the training course last fall.

Scoutmaster Irwin Ropp, who received the five-year key for five years of leadership, training and troop work, was presented his key by Richards. He is the third Lawrence county man to be so recognized.

To the Rev. Stump went one of the most coveted of all Scoutdom's awards—the "silver beaver" award. Each year one councilman or Scoutmaster is cited for his fine work, with Dr. G. S. Bennett and President Round having received them in past years.

After the awards came the four-scene pageant, "Mightier Than the Sword", directed by Miss Elizabeth Owens. It dramatically recalled the great Birkenhead, England, jambooree in 1929, and then pictured events in 1954, when Scouts will occupy the seats of power. C. W. Herman Hess read the epilogue and prologue.

Music for the acting was furnished by John E. Paton, Miss Dorothy Fisher and James Calahan.

GARDNER

Mrs. S. W. McCollough and Mrs. Frank M. Hay were pleasing hostesses last Friday night, when they jointly entertained the Ever Faithful class and the teachers of the Gardner Sunday school. There were 18 present at this merry Valentine party which was held at the McCollough home at Gardner. There were contests and games and matching of wits until a late hour, when a tempting lunch was served by the hostesses. Those present were Rev. R. J. Fredericks, Mrs. Fredericks being absent on account of illness. Mrs. Earl, Mrs. Brest, Mrs. Robinson, Mrs. Brunton, Misses Lois Myers, Malinda Walker and her sister Ada, Elizabeth Croup, Mr. Robb, Mr. and Mrs. McCollough, Mr. and Mrs. Hay and daughter Virginia and Ernest Cowley.

Mrs. Lewis Wigton has a number of relatives in New Castle and vicinity who will be glad to learn that she is living in a beautiful home in Long Beach, Cal., and has reached the age of 95. Her health is good, her mind is clear and she is a comfort to her six daughters. Her husband was a very successful farmer in Iowa for many years, and they all moved to Long Beach years ago. Mr. Wigton was a nephew of James Wigton whose wife and children were all killed by an Indian in 1844. Gardner's oldest resident is a niece of Mrs. Wigton.

The children of Charles Benson of Gardner gave their sister, Mrs. Reuben Johnson, a surprise birthday party on last Wednesday night. The sons and daughters and their children made a happy group of more than 30 who came laden with smiles and good wishes and gifts worthy of the occasion, and generous baskets of good things.

Rev. John Snape, D. D., was pastor of the First Baptist church in New Castle some years ago and is now with the Temple church in Los Angeles. His church is sending out a little folder called The Reflector, volume one, No. 1, which contains an item which will interest many friends in New Castle. This was written January 29. "Bon Voyage. Our earnest prayers and best wishes go with Dr. Snape as he speeds away from us at the close of the evening service. The ordeal of the next six weeks will be a test of his courage, and of our faith. Every member of this church will follow his recovery from a major operation with personal interest and prayerful attention." Dr. Snape went to an Oakland hospital.

Mary and Charlie Zorens of Gardner are still out of school on account of eye trouble. After spending two weeks at Gardner, Miss Christine Hatch of Philadelphia is making her home with Mr. and Mrs. Rankin Johnston on the New Wilmington road. Miss Hatch has had one book published called China as the New Republic. Mrs. Laura Johnston of Wampum spent a week with Mrs. Daisy Trimble and family of the old Pittsburgh road.

On Monday just at noon a passer-by noticed a fire at the home of Mr. and Mrs. Alexander on the old Pittsburgh road. All they were able to save was a sewing machine, an armful of bedding and a stove. Everything else was lost. Mrs. Alexander had worked so hard last fall canning so much food for the winter but all was lost. Three children went home at night to find their home in ashes. The family are being cared for at the home of a sister of Mrs. Alexander.

James Weinsgartner of the Butler road is out of school this week on account of a heavy cold. Mrs. Weinsgartner is giving much time and energy to the Red Cross work at the Shenan school.

NEW GALILEE

Mrs. Charles Davis and small son were visitors at New Brighton Monday.

Mrs. David Welsh of Negley, O., is a guest at the home of Mrs. Charles Davis.

Mr. and Mrs. T. L. Linsey and daughter Martha Jane were Monday visitors at Columbiana, O.

Mr. and Mrs. Albert Welsh were recent visitors at the home of Mrs. Samuel Shurlock, who is seriously ill.

Wayne Gray, who has been confined to his home with a severe attack of pneumonia, is improving nicely.

EIGHT HUNDRED AT BESSEMER MINSTRELS

(Special to The News.)

BESSEMER, Pa., Feb. 9.—Almost 800 people last night attended the annual minstrel show held in the high school auditorium by the Bessemer Booster club for the benefit of the welfare department. For two hours and 15 minutes the audience enjoyed the program which was a riot of mirth. About 70 persons took part.

The interactor was A. A. Shoup. The orchestra was conducted by William Martin and he was assisted by Irma Pelt and George Pelt. The stage was decorated especially and the orchestra occupied a raised position on the rear of the stage.

End men were C. D. Montgomery, Chester Chaddock, Richard Hilliard, Robert Young, Johnny Hullina, Henry Young and Axel Swanson, and solos were rendered by A. A. Shoup, Joe Wallace, Dennis Young, Audley Snyder, Chester Wallace, Meloy Hullina, William Eckman, Henry Young, C. D. Montgomery, Kenneth Gwin and Axel Swanson.

Comedy acts were presented by Charles White and Frank Beale; John Brinton and John Szeicz; Joe Wallace, Meloy Valentine, Tony Glasse and Denny Rayen with Miss Frances Brinton piano accompanist. C. D. Montgomery put over a number, "Strutting at the Strutters Ball".

WANT TO LOOK YOUNG?

The secret of keeping young is to feel young—to do this you must watch your liver and bowels—there's no need of having a sallow complexion—dark rings under your eyes—pimples—a bilious look in your face—dull eyes with no sparkle. Your doctor will tell you ninety per cent of all sickness comes from inactive bowels and liver.

Dr. Edwards, a well-known physician in Ohio, perfected a vegetable compound as a substitute for calomel to act on the liver and bowels, which he gave to his patients for years. Dr. Edwards Olive Tablets are gentle in their action yet always effective. They help bring about that natural buoyancy which all should enjoy by toning up the liver and clearing the system of impurities.

Dr. Edwards Olive Tablets are known by their olive color. 15c, 30c, 60c.

WAKE UP YOUR LIVER BILE—WITHOUT CALOMEL

And You'll Jump Out of Bed in the Morning Rarin' to Go

If you feel sour and sunk and the world looks punk, don't swallow a lot of salt, mineral water, oil, laxative candy or chewing gum and expect them to make you suddenly sweet and buoyant and full of sunshine.

For they can't do it. They only move the bowels and a mere movement doesn't get at "sinking" your liver. It should pour out two pounds of liquid bile into your bowels daily.

If this bile is not flowing freely, your food doesn't digest. It just decays in the bowels. Gas builds up your stomach. You have a thick, bad taste and your breath is foul. Skin often breaks out in blemishes. Your head aches and you feel down and out. Your whole system is poisoned.

It takes those good, old CARTER'S LITTLE LIVER PILLS to get these two feel "up and up." They contain wonderful, gentle vegetable extracts, amazing when it comes to making the bile flow freely.

But don't ask for liver pills. Ask for Carter's Little Liver Pills. Look for the name Carter's Little Liver Pills on the red label. Request a substitute. 25c at all stores. © 1931 C. M. Co.

Change to Mobilgas and Mobiloil Arctic and Start

NOTHING is quite so annoying or costly as a tussle with a starter that won't start. Every extra turn of the starter drains the life of the battery. Every tug on the choke rod releases raw gasoline which seeps down into the crankcase to dilute the oil.

Here's one sure remedy! Mobilgas and Mobiloil Arctic. With these winter-proof products, when you step on the starter, you start! Climatic-Control, scientifically verified for quick starting by laboratory tests at sub-zero temperatures, is an exclusive feature of Mobilgas. Mobiloil Arctic, because it is a double-range winter oil, gives instant lubrication on coldest days plus complete protection at highest engine temperatures.

VICKS CUTS ANTISEPTIC COST IN HALF!

Makers of VapoRub produce new mouth-wash born in a depression... priced accordingly

WE make no extravagant claims for Vicks Vaseline Antiseptic. It is simply the best oral antiseptic Vicks Chemists could produce. And they were aided by the chemists, bacteriologists, and pharmacologists of our 16 allied organizations... in America, England, and Germany.

They examined the whole field of oral antiseptics. Some they found were too weak... a few far too strong for regular use in the mouth. Most were very good... but all much too expensive.

So they produced a balanced antiseptic... mild enough to be used day in and day out without risk to delicate membranes... strong enough to do everything an oral antiseptic can safely do.

You can use Vicks Antiseptic in the usual way for all your customary uses. And Vicks Antiseptic has this additional unique advantage... Born in a depression year, it is priced accordingly. Large 10-ounce bottle... a usual 75¢ value... for only 35¢.

New Castle High 1933 Football Schedule Announced

Gardner Arranges Eleven-Game Card

Two Dates Open, But Will Be Filled By Strong Teams, Says Gardner

Sharon, Chaney And Braddock New Teams Added To Card For 1933

New Castle high school "Red Hurricane" football team will face one of the toughest schedules in the history of New Castle high school this coming fall, according to Faculty Manager Ralph H. Gardner today in making public nine of the 11 proposed games for Coach Philip H. Bridenbaugh and his griders. Three new schools have so far been added to the program—Sharon, Chaney of Youngstown and Braddock. The opening game will be a night affair at Taggart field on September 15. The co-champions of the W. P. I. A. L. in 1932 will play four class A games again this year as follows: Washington, New Kensington, Turtle Creek and Charleroi. The Turtle Creek, Charleroi and New Kensington games will be played away from home.

Two Rivals Back. Two of the old rivals, Butler and Sharon, will be back on the schedule. Butler playing here on Armistice day as a part of the gigantic Legion celebration and Sharon having the Thanksgiving day game here. Of course it's a far cry to football season just now, what with the temperature at zero and about a foot and a half of snow, but it means that summer is coming and then follows football.

The 1933 card is one of the most attractive ever arranged by Mr. Gardner. The open dates will be filled with strong teams, but just what it will be is not known as yet, although one of the dates may be taken by one of the strongest high school football teams in the country. Just as soon as the complete schedule is arranged it will be announced in The News.

Eight Home Games. There will be eight home games and three away. The scheduling of 11 games precludes the possibility of playing post-season games. Braddock, Ellwood, Washington and Chaney will be night games, with the rest of them day games. The Charleroi game at Charleroi is a night game.

The following incomplete schedule was announced today by Faculty Manager Gardner: Sept. 15—Braddock high at home. Sept. 22—Ellwood City at home. Sept. 29—Charleroi high away. Oct. 6—Pending. Oct. 13—Washington high at home. Oct. 21—Turtle Creek away. Oct. 27—Chaney high Youngstown at home. Nov. 4—Pending. Nov. 11—Butler high at home. Nov. 17—New Kensington away. Nov. 24—Permanently open. Nov. 30—Sharon high at home.

Mt. Jackson Five Victors In Ohio

The victory was made possible by the fine playing of Pitzer and Galley, the Mt. Jackson guards. D. St. Clair and H. St. Clair led the Mt. Jackson team in scoring with three field goals apiece.

The summary: Mt. Jackson 15. Mineral Ridge 13. D. St. Clair, f. 4, 10; Morris, f. 3, 6; H. St. Clair, f. 2, 4; Phillips, Daugherty, c. 2, 4; Porter, Pitzer, g. 3, 6; Galley, g. 3, 6; Evans, Sube, c. 2, 4; Spears, Jones. Referee—Howells. Umpire—Williams.

Ends DANDRUFF Overnight!

There is one sure way that never fails to remove dandruff completely, and that is to dissolve it. This destroys it entirely. To do this, just get plain, ordinary liquid arvon; apply it at night when retiring; use enough to moisten the scalp and rub it in gently with the finger tips. By morning, most if not all, of your dandruff will be gone, and two or three more applications will completely dissolve and entirely destroy every single sign and trace of it, no matter how much dandruff you may have. You will find, too, that all itching and digging of the scalp will stop instantly, and your hair will be fluffy, lustrous, glossy, silky and soft, and look and feel a hundred times better. You can get liquid arvon at any drug store. It won't cost you more than thirty-five cents (35c). This simple remedy never fails.

Big Bens Stop Greyhound Five

Big Bens basketball team of Franklin Junior high defeated the Greyhounds 23 to 21 in a fast and well played game at the Ben Franklin high floor last night. The victory snapped the winning streak of the fast Greyhound team, which had extended to nine straight games.

The game was the most interesting on the Franklin floor this year, the Greyhounds tying the score three times in the last two minutes only to see the Big Bens come out on top. The score at the half was 11-11. Llewellyn, H. Wyman and Martin were the star performers.

Tonight the Big Bens will play the Acme Five of the Seventh ward, and Friday will play the Aliquippa Trade school team at Franklin high. The summary: Franklin Big Bens 23 Fg. F. Tp. Reed, f. 4, 10; Llewellyn, f. 3, 6; Gallagher, f. 2, 4; Avery, c. 2, 4; Ross, g. 2, 4; Rowe, g. 2, 4; DeMark, g. 2, 4.

The St. Marys Reserves will play the preliminary game and the first attraction is due to start at 7:45 o'clock. Basketball fans of New Castle will see one of the finest games of the year at St. Marys floor tonight.

Pitt Just Slides Through With 27 To 22 Victory, Slippery Rock Tops Clarion

(International News Service) PITTSBURGH, Feb. 9.—Only one intercollegiate basketball game is to be played in the tri-state district this evening. Juniata takes to Waynesburg for a match with the Jackets in the lone affair.

Pitt chalked up another victory today, by its win from Western Reserve university in a tight battle here last night, 27 to 22. A second half rally brought Juniata behind in their game with Washington & Jefferson college at Washington, Pa., last night to record a 42-42 verdict. Slippery Rock experienced little trouble in whipping Clarion Teachers, 46-23.

Garden To Drop Boxing Headline

Madison Square Garden Will Not Feature Boxing Alone, Is Indicated

BIKE RACES AND HOCKEY PAYING

By DAVIS J. WALSH International News Service Sports Editor

(Copyright, 1933, By International News Service) NEW YORK, Feb. 9.—It probably sounds a little grotesque to those who saw the golden flood of dollars mount high from ringside to rafters in the days of its greatness. Nevertheless boxing, that world of tinsel and make-believe around which Rickard built his dreams of empire, is soon to be dismissed as a major factor in the affairs of Madison Square Garden, an institution that boxing made possible.

It won't be abandoned altogether; merely allowed to find its natural level of importance.

Feature Other Sports. "We're not going to fool around with boxing much longer," William F. Carey, the Garden president, said today.

"Boxing now accounts for only a small percentage of our revenue," added Harold Dibble, the Garden booker, who went on to explain that hockey, the two six-day bicycle races, the circus, the horse show, the dog show and kindred enterprises were more desirable from the standpoint of the box office. The arena, it seems, does a million dollars worth of business through the "season," which runs from October 1 to May 15. Of this amount, the six-day races alone have contributed as much as \$300,000 in a single week. As for hockey, it practically sells the place out three times a week.

OLYMPIC A. C. WINS

Olympic A. C. basketball team defeated the Lamancusa Five last night 18 to 14 in a game played at the Army floor. The playing of Pretz, Dewberry and Elser featured the game. The Olympic Reserves beat the Night Hawks 27 to 25 in the preliminary game.

Ross And Piai Box Polis Has Warren Farrow On Floor At End Of Bout 10 Slow Rounds Here

Johnny Piai of Greenville proved too much for Tony Ross of Charleroi in a bout which went 10 rounds here December 10, 1928. They fought at 148 pounds. Ross fought defensively for eight rounds. In the 10th he made a garish finish, but his holding and defensive tactics in the first eight chapters weighed heavily against him.

Piai "buled" after Ross, but could not connect solidly until the sixth, when a right dropped Tony to a knee. He got up and apparently the knockdown awakened him. He shook Piai with a right to the jaw in the eighth, then lapsed into a defensive style. He fought back in the ninth, and in the 10th swarmed all over the Greenville welter.

Corelli Wins. Jor Corelli, the pugilistic clown from Erie, won from clever George Lauder, Pittsburgh, in six rounds. Just when Lauder didn't expect a whirl of gloves, Corelli would let him fly. Several times during the fight Lauder, who was known as a clever boxer, stood still, "flabbergasted" by Corelli's unorthodox way of beating him and beat him Corelli did.

Hearts Hope To Even Up Series

First M. E. Has One Game Lead On Sacred Hearts

FIRST HALF TITLE OF B LOOP, PRIZE

If there's anything more exciting than to watch a nip-and-tuck basketball game, it's more nip-and-tuck basketball. At least, that is the impression of the fans who watched the First M. E. and Sacred Hearts clash in the series inaugurated Tuesday night at the Y. The First M. E. won the opener. The teams will clash in the second game tonight on the Y court and it is expected a big crowd will witness the contest.

First M. E. won, 28 to 25, but only after two extra periods had been played. In fact, at the half it appeared very much as though the Sacred Hearts would emerge in front at the final whistle, as they had overcome First M. E., 12 to 11, at the half. They continued the pace in the third period, but when First M. E. braced in the last period the score was deadlocked, 23 to 23. In the first extra period each team scored a point from the free throw line, but the pace told on Sacred Hearts in the second of the extra periods and their lone point from the foul line could not overcome the two field goals tossed through the hoop by L. Lepley and Brooks. It was one of the most exciting games of the season and preparations are under way to handle a big crowd at the Y. M. C. A. tonight.

The preliminary game will be played by Wesley M. E., division A first half champions, and St. Andrews.

Union To Play Bessemer High Friday Night

Union And Bessemer Will Tangle In County League Game At Bessemer

Union high school basketball team will have to keep going at a fast pace to upset Bessemer high Friday night at the Bessemer high floor. The two teams are scheduled for a Class A County league battle. Bessemer high's upset of the fast Ellwood City high team on Tuesday night gives the Fredericks coaches team a lot of confidence. Union high toppled Evans City Tuesday and the Boyden team will be anxious to continue their winning stride. One of the best games of the county league should result when these teams clash tomorrow night.

Coach Boy will stick with his regular lineup of Boron and Morrison at the forwards, Phillips at center and Schaa and White at the guards. Union must win this important game to stay in the county race.

"Dazzy" Vance Traded Down River To St. Louis, Dodgers Also Give Slade For Flowers

(International News Service) NEW YORK, Feb. 9.—Dazzy Vance, for ten years the prima donna of the National league, got the shock of his eventual life today.

The pampered and petted pitching star of the Brooklyn Dodgers found himself under the stern and disciplinary regime of Messrs. Sam Breadon and Branch Rickey, who would not concede a two-inch putt. He will be lucky to get more than \$8,000 this year from the eagle-eyed executives of the St. Louis Cardinals. Only two years ago Vance drew \$25,000, the highest salary ever paid a pitcher.

To add insult to injury, the four-man trade between the Cards and Dodgers last night amounted to Vance being swapped for the pitcher who lost more games last year than any other National league hurler—Owen Carroll. The latter, obtained by St. Louis from Cincinnati last month, goes to Brooklyn with infielder Jake Flowers for Vance and Shortstop Ossie Slade. No cash was involved, it was announced.

Bush Confident Cincinnati Will Have Fast Team

Manager Donnie Bush Says Reds Will Be Improved Ball Club This Season

BOTTOMLEY WILL PLAY AT FIRST

By PAT ROBINSON International News Service Sports Writer

NEW YORK, Donnie Bush, peppy little manager of the Reds, expects to have a pretty fair ball club in Cincinnati this year. "Give me a good third baseman," Donnie has been quoted, "and I'll be right there."

This merely goes to show what an incorrigible optimist Donnie really is, for to an unbiased observer it would appear he could use a classy second baseman, a shortstop who could hit, the aforementioned third baseman, two more first-class pitchers and two slugging outfielders.

Outside these few needs the Reds appear to be all set for a winning season. At that, they'll be better than they were. They could hardly be worse.

Bottomley at First. Jim Bottomley will be a big help at first base. Morrissey may do better at second and Durocher will again live up to what the late Miller Huggins called him—"the greatest fielder and the worst hitter in baseball." Bludge will hold down third base.

Ernie Lombardi, a heavy hitter, will do the bulk of the catching. In Chick Hafey the Reds boast a great hitter and fielder who has the finest throwing arm in the National league. Chick and Bottomley will supply the team's punch.

The Reds have bought Harry Rice to help out Roettger and Hafey in the outfield. Pitchers Are Good. The Reds have two great pitchers—Johnson and Lucas—but Koop is only fair. Benton is growing old. Rixey is years past his peak. The newly purchased Dutch Henry, who was a veteran years ago, may help out in relief roles, but the rest are only so-so or worse.

Of course, the Reds may stage a baseball miracle, but you wouldn't care to risk the family plate on it. Taking them on their record, they look like a cinch to finish a nice snappy eighth in the National League.

Old Troopers Can Get State Medal

Pennsylvania Gives Medal To 28th Division Vets With Service In War

Old members of Troop F, 103rd Cavalry, who saw service in the World War, and were members of the troop prior to August 5, 1917, or any 28th Division man with service in a unit prior to the above date and who saw service in the World War, are entitled to a medal issued by the state of Pennsylvania. A. L. Conn, commander of the Kahle-Ashton Post announces.

Commander Conn has already received his medal, as have several more of the old troop members. The Kahle-Ashton Post has received letters from Senators Reed and Davis and Congressman Swick, in which they state they are opposed to reducing the armed forces of the United States at the present time. A letter protesting reduction in the Army, Navy, and Marine Corps, as well as the National Guard, was sent to each of the above members of congress several weeks ago.

Discuss Action Against Owners Of New Magazine

Senate Takes Up Matter Of
Punishing Owners Of Mag-
azine For Criminal
Attack

(International News Service)
WASHINGTON, Feb. 9. — The
question of prosecuting publishers of
the "New Outlook" magazine, for
publishing an attack on the integ-
rity of members of congress, was
considered today by the senate
judiciary committee.
The periodical of which Alfred
E. Smith is editor, was "under fire"
because of an article by David S.
Barry, then sergeant-at-arms of the
senate, charging "not many senators
or representatives sell their votes for
money." Barry was formally re-
moved from office by the senate.
A resolution proposing prosecu-
tion of Barry and publishers of the
publication on a charge of criminal
libel, was referred to the commit-
tee. Senator Walsh (D) of Mon-
tana, was its author.

Reveals Spurt

Leading Stocks Move Up 1
To 2 Points During
Early Trading

(International News Service)
NEW YORK, Feb. 9.—Bullish sentiment brought a spurt in the stock market today with American Telephone, U. S. Steel preferred, Union Pacific, Allied Chemical and American Can rising 1 to 2 points and holding their gains despite profit-taking.

All markets were better. Cotton rose 50 cents a bale and wheat nearly a cent a bushel. Bonds were strong, and the dollar was up against foreign currencies. Telephone's strength anticipated its annual report tomorrow and the expectation of the regular dividend next week. Steel issues were higher in the face of predictions the unfilled tonnage report tomorrow would show a decline.

The buoyant tone in the rails reflected better traffic figures and anticipation of Union Pacific's regular dividend.

Strength in the general list brought covering into the tobaccos, which recovered some of the ground lost recently. Farm stocks rose with wheat and cotton.

Trading was active at the opening but quieted down later as profit-taking came in. The undertone remained strong.

Many Scouts And Friends Gather
In Lutheran Church
Here Last Night

ELLWOOD CITY, Feb. 9.—Ellwood City celebrated the first day of the Boy Scout Anniversary week in an interesting manner last night. Scouts, scouters, and people gathered in the Trinity Lutheran church where an interesting program was carried out.

John Lindgren, chairman of the court of honor, presided on the occasion and introduced the speakers and scout officials during the evening. Among these were Burgess J. C. Turner, the new president of the local scout council, Rev. H. D. Maxwell, Commissioner Jack Pearson, C. W. Zeigler, Erle Yahn, Deputy Commissioner E. D. Danner, Joe Latiano, A. J. Dambach, and E. K. Herbert, field executive.

All responded with a few words. Burgess Turner told of his experience with boys for the past four years as an official of the city. He pointed out how petty crimes have been cut considerably as the boy scout movement spread in this city.

Mr. Herbert made several announcements in which he urged that all boy scouts and residents of Ellwood City give their entire support to the big pageant to be given in the Lincoln auditorium this evening. The pageant is to be presented by a New Castle scout troop. Then he announced the big indoor round-up for Saturday afternoon at the Shelby club house; and the special court of honor next Monday evening at Shelby.

OLD SORES

Wouldn't you be glad to learn how the pain and itching of old Sores, Ulcers and Itching Rashes can be stopped and the Sores healed in a few days? An amazing ointment is now doing these very things, and here's an instance:

"For 7 years I suffered untold agony with a Varicose Ulcer on my ankle. The first application of PETERSON'S OINTMENT took all pain away. In 4 weeks the ulcer healed up completely. I simply cannot say too much for your ointment."—Mrs. Fred R. Voigt, 115 Telford St., Newark, N. J.

No wonder over 500,000 people to date have used PETERSON'S OINTMENT to make their skin gloriously smooth, healthy and free from Sores. You can do the same for only 35c at any drug store in America.

Observations In 7th Ward

If ever ashes were needed at the intersection of Liberty street and Madison avenue, it was yesterday afternoon. One truck driver applied the brakes twenty yards from the corner and skidded all the way to a place directly beneath the traffic signal light. . . . If it is behaving true to form, the grade leading down from the viaduct to Mahoning avenue is proving a Nemesis to drivers today. . . . "Mac" McConnell, who operates one of the Mahoningtown street cars, saw four automobiles being towed over Moravia street yesterday afternoon. . . . The building formerly occupied by a Chinese laundryman on Liberty street has been torn to the ground. Nothing remains but a few bricks of the fire place. . . . Noticed that the seventh ward fire department has gone "Buy American."

OFFICIAL VIEWERS

INSPECT ROAD NEAR HERE ON WEDNESDAY

C. P. Patterson, Leslie Wilson and George Hettenbaugh were inspecting the road from Willow Grove to the Cleveland Mill road Wednesday morning for the purpose of deciding whether or not the road should be abandoned. The three men had been appointed as viewers.

The road, which was laid out over ninety years ago, is located east of the Oren Vance place in North Beaver township and extends in a southerly direction toward the Cleveland Mill road.

It is claimed that the road is useless and a burden to the taxpayers.

LADIES' AID MEETS

With Mrs. J. W. Jones, president, in charge, a business meeting of the Ladies' Aid Society of the Madison avenue Christian church was conducted Wednesday afternoon at the home of Mrs. C. H. Clark, Mt. Jackson road.

A social time followed. Lunch was served to the 12 guests by Mrs. Clark, Mrs. Ada Robinson and Mrs. Carl Houk.

The group will meet again in March.

LIBRARY OPEN TODAY

This bitter cold weather is the sort used by local people in staying in their homes beside fireplaces with good books on their knees. The Mahoning branch library is open today; this makes it possible for seventh ward residents to secure reading matter without making a trip to Jefferson street.

PAIN DEADENED CHEST COLDS LOOSENED WITHOUT DRUGS

Get quick relief from neuralgia pain, sciatica pain, neuritis pain, rheumatic pain, lame back, stiff neck, headache, strains and chest colds by rubbing plenty of Baume Bengue (pronounced Ben-Gay) on the spot. It doesn't blister or stain. Rub it in till it sinks down and the chest cold, pain or breaks up the chest cold. Take no drugs, for any drug that is powerful enough to "deaden" pain or loosen a chest cold may not be good for you.

But beware of imitations. Ask your druggist for Baume Bengue by name (called "Ben-Gay" in English). There are many analgesic balms, mostly cheap imitations of Ben-Gay made out of synthetic drugs. That is why they are ineffective. That is also why they are ineffective. Insist on Ben-Gay and you will get real results.

It Was Buried in the Back Yard

One day last week a lady came in our office to make a payment on the loan on her home. She tendered \$30.00 in currency to our cashier as payment, but the money was so dirty and mouldy the cashier refused to accept it and requested other money. The lady said that all the money she had was dirty, as it had been buried in the back yard and had gotten wet. She said that her husband had gone to work and from the newspaper statements business was getting better and they had decided to spend the money they had buried for much-needed necessities.

Many people during the past year did the same as the lady referred to, but with employment increasing and hysteria gradually giving away to confidence, business looks more promising than at any time since the fall of 1929.

All we need today to complete our peevish at this weather is to get a postcard from Key West or San Diego stating that the sender is enjoying the moonlight nights on the bay and day after tomorrow has an invitation to go out to an orange grove to pick oranges.

It's just that kind of weather. Sharp as a Japanese reply and as cold as the French premier is to the war debt. The kind of weather we had when they still made ear muffs and red flannel was considered the height of something or other in underwear.

Weather experts staggering in from the outposts of East Brook, Hog Hollow and Pulaski report a spell of weather out there, such as hasn't been since the Armistice. One lad tells a story of a cow in Washington township that hooked herself to a limb five feet above her head because of the cold. Seems the cow stood out all night and her breath froze. The constant breathing added to the fast growing icicle formed on her lip and it gradually went up and over the limb of the tree and there she hung.

dear minister groundhog, please excuse, the cracks we made some days ago about your getting out to see if we'd have rain or sun or snow; it seems you knew your apples friend and we were guilty of a wheeze.

dear mister groundhog, please excuse, likewise you lug I hope you freeze.

A Spruce street lassie decided she would remain out of school during the afternoons of this week. Her mother found it out and asked her why she was playing off from school. It seems the youngster didn't like the toxin-anti-toxin inoculations they were putting out and she explained to her mother that she "didn't want any of that hoxum-toxum they were putting out."

Some folks haven't yet got their deers licenses from Bill Pitts and are still coming in. Seems that most of them don't understand the first question asked the applicant, and that is what his name is. The clerk starts the questioning by asking "what name please" and the answer invariably is "Rover," or "Spot" or "Snorter."

Probably the weather kept the crowd down at the Boy Scout affair last night in George Washington Junior High School. It was an interesting program, presented by lads who a few years from now are going to be the prominent citizens of the city, and in that group there undoubtedly were youngsters who some day you will address as Mister Mayor, or Judge or some other term.
